

THE STUDIO CHAIR

Buchanan Studio has launched their first ever product: enter the 'Studio Chair.' In line with their imaginative and visionary approach, the Studio Chair is as versatile and eclectic as Buchanan Studio. The chair is an instant classic that combines their signature, strong aesthetic with craftsmanship and comfort. The Studio Chair has been inspired by the soft geometric shapes and fluid forms of 1970s design and furniture, fully upholstered in a fabric designed by the team exclusively for it and screen printed in England. We'll take one in every colour!
